Preface

Hi there, this is my great book.

Why read this book

It is very important...

Software information and conventions

I used the **knitr** package ([Xie, 2015](#)) and the **bookdown** package ([Xie, 2020](#)) to compile my book. My R session information is shown below:

```
xfun::session_info()
```

```
## R version 4.0.3 (2020-10-10)

Introduction

Now unplug your Internet cable, and start doing some serious work.

We have a nice figure in Figure 1.1, and also a table in Table 1.1.

```
par(mar = c(4, 4, 1, .1))  
plot(cars, pch = 19)
```

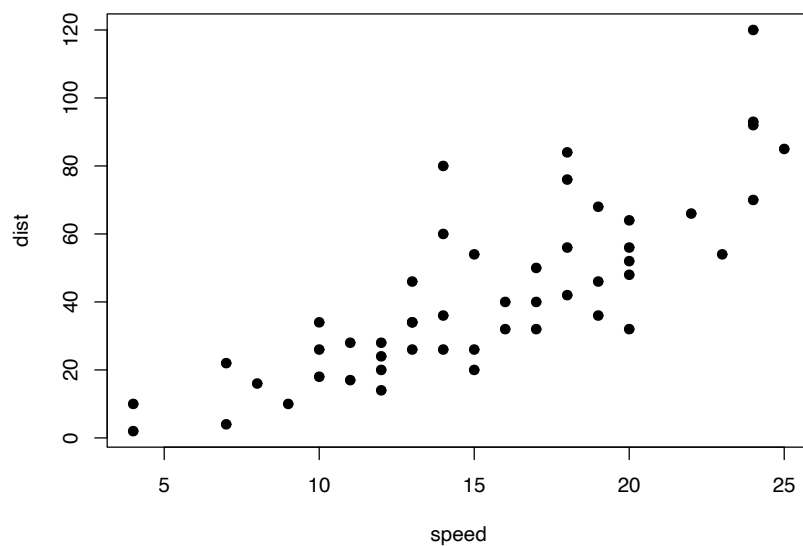

FIGURE 1.1: Hello World!

```
knitr::kable(  
  head(iris), caption = 'The boring iris data.',  
  booktabs = TRUE  
)
```

More chapters to come in 02-foo.Rmd, 03-bar.Rmd, ...

More to Say

Yeah! I have finished my book, but I have more to say about some topics. Let me explain them in this appendix.
